Nature and Science

FOOD SUPPLEMENT

HARMONY OF NATURE AND SCIENCE

ESSENSEY was born from perfectly harmonious meeting of nature and science to help maintain homeostasis, the state of balance within all physical systems needed for a body to function properly and survive, naturally. Even the slightest disorders like lack of adequate sleep or fatigue take a serious toll on energy levels required to complete daily challenges. They also affect mood and outlook.

HOLISTIC APPROACH

We are driven by holistic thinking for body and mind wellness to formulate our expert designed, science-based products to promote:

- **healthy eating habits and nutrition**
- **sleep hygiene and health**
- **physical activity and regular exercise**
- **mind wellness**

INSPIRED BY NATURE

In **ESSENSEY** we believe in the power of nature and we strive to maximise what is best in nature by sourcing our ingredients in different parts of the world for our nature inspired products.

CERTIFIED QUALITY AND SAFETY

We take great care to ensure safety and high standards of manufacturing so that you can enjoy finest, premium quality formulations produced at our **ISO9001** and **ISO22000** certified manufacturing site.

All our products are tested for safety by certified laboratories. We collaborate, on a regular basis, with **J.S. Hamilton Poland**, the accredited for highest quality standards proven and recognised by the **Polish Centre for Accreditation** and member of national and international organisations.

BRAND VALUES

At its core ESSENSEY is all about the harmony and balance to ensure mood health and power up the powerhouse of body cells so that you can enjoy adequate energy levels to pursue goals, succeed in one's endeavours and meet demands of modern wellbeing every day.

PORTFOLIO

In ESSENSEY, we do understand our customers' needs vary. Therefore, committed to meet these highly variable needs of men and women, we have created product portfolio which features a wide variety of formulations meticulously designed with expert knowledge including vitamin, mineral, herbal and EFA supplements.

Our experts: nutrition technologists, dieticians, microbiologists work to develop high potency formulas characterised by the highest possible active ingredient concentrations, optimised bioavailability and good value for money.
